PRECISION CONTENT.com

DITA
PUBLISHING
SOLUTIONS
FOR THE
ENTERPRISE

You spend a lot of time, money, and resources creating DITA content. Our publishing solutions make it possible to surface and share your DITA content across the enterprise in Microsoft® Word®, PowerPoint®, SharePoint®, and WittyParrot™.

WittyDITA
SHARE YOUR CONTENT

WittyDITA™ publishes your reviewed, approved, and official technical DITA/XML documentation to WittyParrot™, the cloud-based knowledge automation and collaboration platform. WittyDITA adds your high value content to WittyParrot's search and reuse tools, ensuring the authoritative content that your people need is readily available when and where it's needed.

What is WittyDITA?

WittyDITA™ plugs into any standard DITA/XML publishing system to connect your DITA-based content assets with the WittyParrot platform. Once in WittyParrot, the content is made available to all users through Microsoft Office plug-ins allowing users to search for and reuse content directly into their documents, emails, and presentations.

Share your content

- Always be confident that reusable content has been reviewed and approved through your editorial and publications process.

- Find and use content with just a few clicks and without having to navigate complex portals or other web-based systems.

- More than a file sharing and storage solution, you can now discover, classify, assemble, deliver and track high-value content in one application. It is truly a single-source-of-truth.

**Brought to you by Precision Content**

How it works

WittyDITA publishes content and metadata from your DITA content management system to your WittyParrot repository as blocks of content known as wits. Using WittyParrot's classifications, anyone can locate wits by metadata, such as product, version, release, platform, and more.

Microsoft Office Plug-Ins

Once it is indexed in WittyParrot, the content is available through Microsoft Office plug-ins allowing users to search for and reuse fragments of the latest approved content directly into their documents, emails, and presentations.

Shareable Presentation Gallery

WittyDITA now makes it possible to reuse content from your DITA/XML publications as PowerPoint slides in WittyParrot. Simply reuse your DITA topics in a presentation map and WittyDITA will parse your content and layout your slides in a gallery in WittyParrot. Download and save your presentation as a PowerPoint file. Next time your content is updated, your slide content can be automatically refreshed from the content and downloaded again from WittyParrot.

More tools from Precision Content to help you share your content

DITA forShow™

DITAforShow
PRESENT YOUR CONTENT

Whether sales, marketing, compliance, or training, departments across the enterprise use PowerPoint® to communicate. Ensuring presentations include accurate, up-to-date information is critical. DITA forShow allows authors to publish DITA content to PowerPoint.

DITA onPoint™

DITAonPoint
ENTERPRISE PUBLISHING

Share Point® is everywhere. A 2016 study, revealed that 63% of organizations use SharePoint as their main, secondary, or legacy enterprise CMS, or records management system. DITA onPoint makes it possible to deliver your DITA XML across the enterprise using SharePoint.

DITA inPrint™

DITAinPrint
GET THE WORD OUT

DITA in Print is a design and publishing tool that makes it easy to create templates that conform to corporate styles. It enables users to easily publish DITA/XML content with those templates to fully styled Microsoft Word® and Adobe® PDF documents.
