

THE ROBOTS ARE COMING

Do you speak robot?

THE PROBLEM

We need to do more with content

Many businesses have not yet taken action to adapt their content development processes for emerging AI-driven technologies. Simply creating more content to support more channels is not the answer. We must do more with the content we already have.

Size of the connected Intelligent Industry of products, operations and services.

[Adobe DITA World 2021]

When AI-powered voice assistants is forecast to reach 8 billion worldwide.

[Statista, 2019]

Of client interactions were handled by AI in 2021—up 400% from 2017.

[Gartner, 2019]

THE SOLUTION

Intelligent microcontent

Microcontent is the next step in your journey from documents and topic-based structured authoring to more precise, flexible, findable, and consumable content components that can feed intelligent machines. Content transformation leads your organization into a future powered by incredible advancements in content management and artificial intelligence.

It's time to get your content **future ready**

precision content

+ *trust in your content*
